

Wastewater Collection System

The City of Dillon Wastewater Collection System division operates and maintains 73 miles of wastewater lines and 24 lift stations that deliver wastewater to the City of Dillon Little Pee Dee Wastewater Treatment Plant or Cypress Pond Wastewater Treatment Plant for treatment. The division administers a wastewater line installation and repair program on small lines in addition to installing wastewater taps for new customers. An on-call status is maintained to provide 24-hour service. The Water & Wastewater Superintendent oversees the daily operation and maintenance of the Wastewater Collection System.

LOVE'S TRAVEL STOP LIFT STATION
